

WE PAY while THEY PROFIT

Prices keep rising while all the big food companies and shops are making higher and higher profits.

Last week we had a blackboard up in the market showing people what different shops were charging for the same goods. The Manager of Caters complained and told us that we should have written up their so-called bargain offers. Well, how about Caters making everything a "bargain offer"? - a special 10% reduction on everything before Xmas!

On our own we are helpless against the giant stores: many people are forced to shoplift because otherwise they'd go without..... But together we are strong - without our custom they'd go out of business. In York the people succeeded in forcing a supermarket to cut 15% off all prices for old age pensioners. People can picket stores, boycott shops that prosecute shoplifters, and get solidarity with shopworkers who also get a raw deal from the stores - underpaid, overworked, and blamed by customers.....

DO SOMETHING ABOUT RISING PRICES NOW!

Come to a Meeting!
Sunday 9th December
at 4 o'clock in
Holy Trinity Church Hall
Morgan St. E 3
